SUMMARY

Experienced Project Engineer with a robust background in the software industry and startup sector. Seeking a challenging role where I can leverage my expertise in HTML5, CSS, Bootstrap, JavaScript, and Django to contribute to innovative web projects. Proficient in Python, Kubernetes (K8), CI/CD, and Rest API, enhancing application responsiveness by 30%. Adept at data visualization with Grafana and Prometheus, boosting user engagement by 25%. Conducting functional and performance API testing for RESTful API & SOAP Web Service using SoapUI.

TECHNICAL SKILLS

Programming Languages: - Python, JavaScript

Web Development Tools: - Bootstrap, Tailwind CSS, Django, Context API, WordPress.

Databases: - MS SQL Server, Squirrel SQL, MongoDB Atlas

Monitoring Tools: - Grafana, Hawk, Splunk, SolarWinds

Other Tech: - Soap UI Testing, Rest API, Git, UI/UX Design, TIBCO, Grafana, Kubernetes (K8)

EXPERIENCE

Application Support Engineer (March 2023 - Present)

Wipro Ltd, Bengaluru, IN

- Design and Development of Middleware Solutions using TIBCO Suite of Products (Business Works (BW 6.8.1), Enterprise Messaging Service (EMS 10.2.0), API Cloud Management Local Edition (5.6.0)). Developing Adapters using TIBCO Business Works and hands-on development using Tableau/TIBCO Spotfire to create dashboards & reports and use as standard templates.
- Conducting pre- and post-validation of approximately 48+ servers during patching activities across various environments including Development, PreProd, and Production servers such as Admin, Integration, Messaging, Datagrid (ActiveSpaces), and API Cloud Management servers. Utilizing SolarWinds monitoring tools to ensure seamless performance and stability throughout the patching process.
- Consistently monitoring TIBCO BW applications and log files to maintain uptime, resulting in a 99% operational efficiency rate. Utilizing HAWK and Splunk monitoring tools for real-time insights. Additionally, adept in employing Grafana to monitor Kubernetes-deployed applications, contributing to a 20% increase in performance optimization.

Consultant (October 2022 – March 2023)

Midas Consulting, Dallas, TX

- Implementing CRUD operations to manage entities efficiently. Facilitate problem and providing resolution by coordinating between the DBA team, affected application teams, other technology teams and vendor support.
- Installation of RDBMS software and creation of Oracle databases on windows/Linux platform. Maintaining physical and logical backups via user managed & RMAN backup recoveries.

- Checking alert log files for internal database activity, DB related error. Applying different types of patches on quarterly for fixing the bugs and Security issues.

Frontend Engineer (July 2022 - September 2022)

Dream Reflection Media Pvt Ltd, Noida, IN

- Build websites using WordPress for more than 50,000 users. Prepare website proposals to present to clients, provide technical support to clients and write coding using HTML5, CSS, and Vanilla JS.
- Proficient in configuring and optimizing Apache and NGINX servers for hosting WordPress websites. Configured SSL certificates and enforced HTTPS protocol to ensure secure communication between the server and visitors. And to protect WordPress websites from common threats like DDoS attacks and unauthorized access.
- Enhanced client websites to boost web traffic and engagement. Focus on keyword research, limiting the repetition of content, worked on Search Engine Optimization (SEO) and building links using Google Analytics.

EDUCATION

Pursuing Master's of Technology (Computer Science & Engineering) – BITS Pilani
2019-2022 - Bachelor's in Computer Application – KIRAS, IPU University
